Fume Extraction Progress

Aurora Labs Limited ("A3D" or "the Company") (ASX:A3D), is pleased to announce receipt of the major equipment for the Company's Fume Extraction Upgrade on the RMP-1 Beta prototype. The upgrade is the focus of the second milestone in A3D's Technology Development Pathway.

The Fume Extraction Upgrade project addresses the removal of the lasing generated print condensate (soot & fume) from the build chamber. Effective extraction is required to create more stable printing conditions and less potential fume interference with the laser beams to enable improved print quality and speed. The system upgrade also improves operational efficiency and safety of print soot handling.

In order to solve this industry-wide metal printing challenge that limits print speed, A3D has undertaken a comprehensive series of activities including system modelling, prototyping, bench testing and engineering design culminating in the specification and procurement of this packaged fume extraction equipment system. The Company has scheduled the system installation during a shutdown period in early December. System commissioning and testing will immediately follow, enabling continuation of parameter testing and progression of printing of parts for potential customers.

The equipment delivery keeps A3D on track for its Q2 Pathway Milestone.

ABOUT AURORA LABS

Aurora Labs Limited ("the Company"), an industrial technology and innovation company that specialises in the development of 3D metal printers, powders, digital parts and their associated intellectual property.

Aurora Labs is listed on the Australian Securities Exchange (ASX: A3D)

FORWARD LOOKING STATEMENTS

This announcement contains forward-looking statements which incorporate an element of uncertainty or risk, such as 'intends', 'may', 'could', 'believes', 'estimates', 'targets' or 'expects'. These statements are based on an evaluation of current economic and operating conditions, as well as assumptions regarding future events.

These events are, as at the date of this announcement, expected to take place, but there cannot be any guarantee that such events will occur as anticipated or at all given that many of the events are outside Aurora's control.

Accordingly, Aurora and the directors cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur.
