## BAESMA Print Project Delivered

Aurora Labs Ltd, ("A3D" or "The Company") is pleased to confirm completion of the previously announced BAE Systems Maritime Australia (BAESMA) trial print project<sup>1</sup>, with printed parts and comprehensive print report delivered to BAESMA for assessment.

The Company's internal evaluation of the parts manufactured on the RMP-1 Beta prototype printer is valuable to A3D's ongoing Technology Development Pathway, which is in its final phase and moving to commercialisation.

The trial parts were completed using A3D's qualified high-power printing parameters and A3D internal and third-party testing have produced positive results in terms of part quality, dimensional accuracy and build rate.

The project has provided the A3D technical team with information and data useful to the overall progression of its unique high-power printing technology.

CEO Peter Snowsill said, "Understanding and meeting customer requirements is key to proving A3D technology and driving our commercialisation strategy. We are becoming more efficient at analysing the function of parts, setting parameters and employing techniques to obtain these outcomes using A3D's high power printing. This project has been very beneficial to our learning in that respect and we are really pleased with the outcomes."

Ends

Approved for release by the Company's Board of Directors.

## FORWARD LOOKING STATEMENTS

This announcement contains forward-looking statements which incorporate an element of uncertainty or risk, such as 'intends', 'may', 'could', 'believes', 'estimates', 'targets' or 'expects'. These statements are based on an evaluation of current economic and operating conditions, as well as assumptions regarding future events.

These events are, as at the date of this announcement, expected to take place, but there cannot be any guarantee that such events will occur as anticipated or at all given that many of the events are outside Aurora's control.

Accordingly, Aurora and the directors cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur.
