

ASX ANNOUNCEMENT

23 December 2016

Aurora Shipping S-Titanium Pro Printer

Aurora Labs are very pleased to announce the shipment of the first full production S-Titanium Pro from our facility in Bibra Lake. This marks Aurora's transition from a developer to a producer of 3D metal printers. It is also the first delivery of one of the original pre-orders that transferred from Kickstarter when Aurora moved away from that platform.

Aurora will now commence regular production of both the S-Titanium and S-Titanium Pro 3D Metal Printers to supply new orders and clear pre-orders.

For further information please contact:

ABOUT AURORA LABS

Aurora Labs is an Australian based company specialising in the development of 3D metal printers, printer software and the supply of associated consumable materials. Aurora has primarily focused on developing innovative 3D metal printing technology to address gaps in the current market for 3D metal printers. It is seeking to meet the market need for affordable small format printers, as well as for industrial grade, high speed, large format 3D metal printers that can be used in large-scale industrial manufacturing on a cost effective basis.

Aurora Labs is listed on the Australian Securities Exchange ([ASX:A3D](#)).
