Aurora Labs receives ISO 9001 Certification, enabling AM Solutions growth.

Highlights:

- Aurora Labs has received its certification for its Quality Management System according to ISO 9001:2015.
- The certification covers the provision of design, engineering and additive manufacturing of bespoke parts.
- This certification demonstrates Aurora's commitment to providing quality advanced manufacturing services and is a key requirement to provide services to Tier 1 industrial clients.

Aurora Labs Limited ("Aurora" or "the Company") (ASX: A3D) is pleased to announce it has received its certification for its Quality Management System (QMS) according to ISO 9001:2015.

Aurora's Quality Management System (QMS) was independently audited by ECAAS Pty Ltd, an internationally recognised certification body. The scope of the certification covered the provision of design, engineering and additive manufacturing of bespoke parts, which are the key activities under Aurora's AM Solutions offering.

The certification is a mandatory requirement for several of Aurora's prospective clients and partners, which have looked to engage Aurora to produce 3D printed parts. With this certification, Aurora anticipates it will be able to accelerate the growth of its AM Solutions business within its target markets of energy, mineral processes and defence.

Peter Snowsill, Aurora Labs CEO commented:

"Aurora continues to develop our AM Solutions business, offering our clients a quality and valuable service. We are focused on delivering innovative manufacturing solutions that are cost-effective, de-risk our clients' supply chains and improve product performance.

This certification is a mandatory requirement for many of our partners, and we look forward to growing our AM Solutions business, leveraging our in-house developed metal 3D printing technologies"

Ends

Approved for release by the Company's Board of Directors.

FORWARD LOOKING STATEMENTS

This announcement contains forward-looking statements which incorporate an element of uncertainty or risk, such as 'intends', 'may', 'could', 'believes', 'estimates', 'targets' or 'expects'. These statements are based on an evaluation of current economic and operating conditions, as well as assumptions regarding future events.

These events are, as at the date of this announcement, expected to take place, but there cannot be any guarantee that such events will occur as anticipated or at all given that many of the events are outside Aurora's control.

Accordingly, Aurora and the directors cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur. For further information, please contact: enquiries@auroralabs3D.com
